

RESEARCH COMMITTEE

REPORTS TO COUNCIL ON EDUCATION

Mission:

The Research Committee is responsible for oversight and management of the AANA research program.

Primary Responsibilities:

1. Oversee the research grant evaluation process.
2. Promote both basic science and clinical research outcomes of AANA research.
3. Interact closely with the American Academy of Orthopaedic Surgeons Council on Research, and promote education and research among other specialty societies.
4. Provide advice and counsel to members with prospective research projects.

Time Commitment:

Includes one in-person meeting at Annual Meeting, conference calls as needed and independent work.

Qualifications:

Any AANA physician member interested in basic science and clinical research.

Staff Liaison:

Carrie Corona
