

HIP ARTHROSCOPY MASTERS COURSE

Choose the procedures.
Spend the day doing them.

SATURDAY, OCT 24

Orthopaedic Learning Center
Rosemont, IL

\$2,899

MEMBER SURGEON PRICE

6+ HOURS

CADAVERIC LAB TRAINING

WHY THIS COURSE?

One day. Real-world impact.

Hip Arthroscopy Masters Course is a **single-day course** designed for immediate impact, so you return to the OR Monday with stronger judgment and techniques you can apply right away.

You set your focus in the lab.

Designed for Orthopaedic Surgeons, Fellows, Residents and PAs who want to refine core skills and expand their procedural toolkit for the cases that call for more nuance. Choose the procedures and techniques that best match your case mix.

Hands-on learning with faculty at your side.

Course chairs J.W. Thomas Byrd, M.D., Benjamin G. Domb, M.D. and Marc J. Philippon, M.D. lead 16+ faculty experts on the lab floor throughout the day.

What to expect:

- Real-time feedback on your technique
- Case-based discussion between procedures
- A lab-focused experience, not a lecture format

What you'll bring back:

- Clearer decision-making for complex cases
- Complication-avoidance strategies, refined with real-time faculty feedback
- Techniques you can apply in your very next case

**“What will be different on Monday?
More confidence. Better decisions.
Practical techniques you can apply
in your very next case.”**

AANA, Hip Arthroscopy Masters Course

FACULTY

Course Chairs
