

# MASTERING THE COMPLICATED KNEE

Choose the procedures.  
Spend the day doing them.

**SATURDAY, OCT 24**

Orthopaedic Learning Center  
Rosemont, IL

**\$2,899**

**MEMBER SURGEON PRICE**

**6+ HOURS**

**CADAVERIC LAB TRAINING**

## WHY THIS COURSE?

**One day. Real-world impact.**

Mastering the Complicated Knee is a **single-day course** designed for immediate impact, so you return to the OR Monday with stronger judgment and techniques you can apply right away.

**You set your focus in the lab.**

**Designed for Orthopaedic Surgeons, Fellows, Residents and PAs** who want to refine core skills and expand their procedural toolkit for the cases that call for more nuance. Choose the procedures and techniques that best match your case mix.

**Hands-on learning with faculty at your side.**

Course leaders Jason L. Koh, M.D., FAANA and Miho J. Tanaka, M.D., Ph.D., are joined by 12 faculty in the lab throughout the day.

**What to expect:**

- Real-time feedback on your technique
- Case-based discussion between procedures
- A lab-focused experience, not a lecture format

**What you'll bring back:**

- Clearer decision-making for complex cases
- Complication-avoidance strategies, refined with real-time faculty feedback
- Techniques you can apply in your very next case

**“What will be different on Monday? More confidence. Better decisions. Practical techniques you can apply in your very next case.”**

AANA, Mastering the Complicated Knee
